

Information for LSOS '22 Presenters

The Life Science Open Space promotes cooperation in the area of Health and Quality of Life.

This year we focus on collaboration in the fight against cancer.

Send us an abstract of your presentation, which should be in line with one of the LSOS'22 modules:

- *HEALTH TECH – integrate to accelerate*
- *FOOD TECH – solutions for cancer patients*
- *HEALTHY ENVIRONS – avoidable causes of cancer*
- *LIFE SCIENCE STARTUP SCENE – pitch your startup idea to investors*
- *BUSINESS DEVELOPMENT – managing the fight against cancer*
- *A CAREER IN LIFE SCIENCE – in search of talents and development paths*

and fit in one of the following presentation categories:

[Open Innovation / Demo / Challenge / Start-Up / Career](#)

Send your application using the form appropriate for the presentation category:

[→ Open Innovation](#)

[→ Demo](#)

[→ Challenge](#)

[→ Start-Up](#)

[→ Career](#)

Selection Criteria:

- compliance with the LSOS'22 theme: □ technologies and products for health and quality of life / collaboration in the fight against cancer disease
- compliance with the LSOS'22 goal: □ development of cooperation, involvement of communities, acquiring partners (the presentation concerns the cooperation offer, the need for support, cooperation at subsequent stages of the project)

Abstracts qualified for the presentation at LSOS'22 and placed on the collaboration platform (in the marketplace), will be promoted through the Klaster LifeScience Krakow communication portals.

*Please send your abstract in English and Polish (if possible). Authors of selected offers will be asked before the event, to send a presentation in *.ppt or *.pptx format*

Applications are accepted until November 15th, 2022. The number of presentations is limited.
