

Open Innovation

/presentations of technological offers and cooperation offer/

A proposal for companies, project and research teams working on an innovative project concerning health and quality of life, wanting to acquire a substantive partner – a person, a team, an institution – able to support the project or increase its value through unique competencies, technology and know-how. This category promotes the concept of Open Innovation.

We invite you to submit presentations of technological offers and cooperation offers. Applications should be sent via the form on the [website](#).

Criteria for choosing a presentation:

1. compliance with the LSOS 2022 theme – technologies and products "for health and quality of life" in the context of the fight against cancer
2. compliance with the LSOS objective – the presentation concerns the offer of work, the need for support, the cooperation in further stages of the undertaking

Submissions selected on the basis of abstracts that receive the highest score according to the following criteria will be qualified for presentation on the podium during LSOS 2022:

1. the territorial scope of the presented cooperation offer has got: local – national – global
2. how innovative an idea/project is: improvement – a complete novelty
3. what is the perspective of the project's impact: short – long-term

Abstracts qualified for presentation at LSOS 2022 will be published on the platform and will be promoted through the Google Adwords campaign.

Please send abstracts in English.

Deadline for submitting offers abstracts: 15 November 2022.

Authors of selected offers are asked to send a presentation in the format of *.ppt or *.pptx
